# ADMIN USER GUIDE

*STEP-BY-STEP INSTRUCTIONS FOR NGO COORDINATORS*

VERSION 1.0

GROUP 4 TECHCRUSH CAPSTONE PROJECT

MARCH 2026.

# 1.0 INTRODUCTION

This guide is for NGO Coordinators (Admins) who use VolunteerBridge to manage projects, volunteers, and tasks. It covers every action you can take in the platform, from creating your first project to generating a participation report for donors.

*NB: You do not need any technical background to use this guide. Each section walks you through a task one step at a time, with screenshots to show you exactly what to look for on screen.*

### 1.1. What you can do as an Admin.

| ACTION | HOW TO DO IT |
|---|---|
| Create projects | Set up new NGO projects with goals and timelines |
| Manage volunteers | View, edit, and remove volunteer profiles |
| Assign tasks | Create tasks and assign them to up to 5 volunteers |
| Track progress | See live dashboard with percentage tasks completed per project |
| Receive notifications | Get in-app alerts for task updates and deadlines |
| Generate reports | Export participation data as CSV or PDF |

# 8.0. TROUBLESHOOTING

| ACTION | HOW TO DO IT |
|---|---|
| **I cannot log in** | Check that you are using the correct email and password. Passwords are case-sensitive. If the problem persists, contact your system administrator. |
| **I was logged out unexpectedly** | Sessions expire after 24 hours for security. Log in again. |
| **A volunteer does not appear in the list** | They may not have registered yet. Ask them to register using the Volunteer registration link. |
| **A task is not showing on the dashboard** | Refresh the page. If the task still does not appear, check that it was saved correctly in the project detail screen. |
| **I cannot export a report** | Make sure at least one filter is applied. If the export still fails, try a different browser or contact your technical lead. |
| **My changes were not saved** | Check for a red error message on the form. All required fields must be filled in. Check your internet connection and try again. |
